9/13	<b>Wednesday 7-10 pm Review for Unit #1 Exam</b>	Complete as many problems as you can in the Example Exam Questions for Unit1 (distributed to students and also available on WEB site) before this review session. Solutions will only be shown during class.
9/16	<b>Unit #1 Exam</b>	Covers the material addressed in lectures for Chapters 1, 2, 3, 5, & 6.
* If necessary, the instructor may delay or delete from the schedule one or more quizzes. Solutions to selected homework problems will be shown during class time, especially when students ask for solutions to particular problems. So, try the problems and ask questions. Keep homework exercises in cheap but useful spiral notebooks and bring these to class.
