

The following are recommended practice problems for Chapter 9 in the textbook. You will not be handing these in, but they would be good for your preparation. A discussion forum is available in D2L for questions / comments on these problems.

9-2 (1,3,5,13,17,21,25,27)

9-3 (2,5,7,9 [unequal variation],11 [unequal variation],13 [equal variation],29 [equal variation]) -
- the answers in the book for #13 and #29 assume "unequal variation", so they will not be correct for your work.

9-4 (1,11,13,15,17)

The following are recommended practice problems for Chapter 10 in the textbook. You will not be handing these in, but they would be good for your preparation. A discussion forum (for chapter 10 alone) is available in D2L for questions / comments on these problems.

10-2 (1,2,3,4,5,7,11,13,15,27)

10-3 (2,9,13,15,17)

10-4 (5,7,9,10,11,12,13,17)

The following are recommended practice problems for Chapter 11 in the textbook. You will not be handing these in, but they would be good for your preparation. A discussion forum (for chapter 10 alone) is available in D2L for questions / comments on these problems.

11-2 (11, 12, 15, 17)

11-3 (19, 21)

11-4 (3, 6, 7, 13)
